

Surgical Drapes

Microscope Drape features perfect covering of OP-Microscopes

Our Microscope Drapes are designed for Zeiss, Möller-Wedel and Kaps Microscopes. The objective lens cover can be switched very quickly and easily.

The soft polyethylene foil is easy to handle and protects the Microscope in the sterile surgical field. The high-quality lens cover reduces reflections and diffuse blurring. The lens produces a bright view and clear focus of the surgical field. It's as clear as daylight!
